

Two Days Workshop on Learning Techniques of ASP.NET Technology

Date: - 10th and 11th March 2016

Conducted by: - Mr. Bhavin Gajjar

A two day workshop was conducted for BScIT Students of 2014-17 batch by Mr. Bhavin Gajjar, I.T. Manager AtoZ Infoway LLP, Surat Gujarat. He is Microsoft Certified Person, MCA and has 10+ years of experience in web development and project management.

The workshop was to benefit students in website development with the help of a small project building. That focused on class based i.e. OOP development and some advanced topics like Ajax, Bootstrap, JQuery and class development for business Logic along with basic topics covered. They were given hands on activities under supervised guidance of the guest along with detailing and showing various advantages of using .Net for web development. Students got corporate level experience of website development. Students were awarded certificate from the company on completion of the workshop.
