

KAVALUS INC., USA & MUMBAI for LIVE PROJECT & INTERNSHIP

Objective: Main objective to work on Access Management Oracle and build Web Applications.

Auro University, Surat, School of IT has arranged interaction between Students of Live Project and Internship with Mr.Laxmikant Purohit , Kavalus Inc., Mumbai on 11th January, 2018 in continuation from last semester during Sept.-Oct.2017 training given by Mr.Amish Munshi, Kavalus Inc., USA.

Mr. Prohit gave ideas how to start the live project for the upcoming session to the BSc-IT students. He deliberated various aspects of live project which students are going to create in the coming session, how various IT technologies will be applied like Java J2EE- Java security, Restful Web Services, Spring Boot, Docker Ldap, Mongo DB, Redish, Angular JavaScript and many more. He also provided roadmap for training schedule to start from this month (January) with Kavalus. After two month from March'18 to April'18 final year students will move to Mumbai for Onsite Training and development on Live project and for the Ist and IInd Year Students Mr.laxmikant Purohit will assign the task accordingly for the work flow of live project.

Overall the talk was very timely, enlightening and highly appreciated by the students.

We are very grateful to Mr.Laxmikant Purohit and Kavalus Inc.Team for spending their valuable time sharing among us with plethora of knowledge and guidance

Mr. Laxmikant Purohit, Kavalus Inc., Mumbai, India

Mr. Amish Munshi, Kavalus Inc., USA
