*“The quote "A university is just a group of buildings gathered around a library" was proved wrong by Auro University. The three years I spent here have been very exciting and full of knowledge. The faculty members stand perfect by meaning of the word "guide". I am currently studying my Master's at outside Surat as one of the appreciated performers in this course...all this because of unique advanced course structure... in BSc. IT... I will always be thankful to AURO University for all the memories and learnings it has given me.”*

*“...AURO University gave me an immense exposure and skills in the field of IT and helped me to be at par with the current technological trends happening around the world.*

*Lectures are not the only learning source that we had over here. The projects that we built made us learn the technicalities in a practical way. This university not only made me learn the technical skills but also the life skills. Also the peers that I had were just amazing and were from diverse backgrounds which made me know about different cultures from all across the country...”*
