

Expert talk cum workshop on **“Future of Interaction Design”**
By
Mr. Kishor Folga, Founder, YellowSlice, Mumbai On Friday
07th September, 2018 in School Of IT, AURO University

Expert Talk cum Workshop was driven by the esteemed IT-Expert and Designer, **Mr. Kishor Folga** shared his journey and experiences of his life as a designer. He mentioned about stone age, medieval age and then modern age interactive design.

He also talked about, how it is used by the industries and also shared his valuable experiences and his journey to the Students. Students learned a lot about, how the interactive design work and how they use interaction design to solve the common problems.

Mr. Kishor in between also conducted a thought provoking workshop. In which he told students to search out the unsolvable problems around them. He also covered some points regarding factors influencing the interactions like **Goal, Technology, Effort and Culture** etc. In between Mr. Folga pondered upon technical topics such as **IOT (Internet Of Thing), Orientation API, Socket, Conversational UI, NCP (Network Control Protocol)** etc.
